VETERINARY REPORT

Horse: Deep Field x Sacred Voyage '19

Signalment: Bay yearling colt

Brands: Left shoulder = JT over lazy 2
Right shoulder = 110 over 9

Microchip: 985100012169558

Examined at: Wild Oaks, 40 Strathmore Road, The Oaks NSW, 2570

At the request of *Mr Scott Darby* as agent for Darby Racing, a veterinary examination of the above horse was undertaken at the Inglis Sales Complex, Warwick Farm, New South Wales on the 15th February, 2021.

Clinical Examination

The clinical examination included heart, ophthalmic eye examination, teeth examination, limb flexion and joint palpation which were normal. The examination also included a review of the radiographs for the above horse provided in the repository, and a review of a video endoscopy examination performed on the horse. The horse was examined at rest and at the walk. There was no evidence of previous abdominal surgery, infection or disease, lameness, laminitis or ataxia. Two descended testicles were palpable in the scrotum.

In my opinion, at this time, the Deep Field x Sacred Voyage '19 presented as suitable for purchase as a racehorse as can be determined from the examination performed as described. Deep Field x Sacred Voyage '19 is suitable for public syndication and mortality insurance.

I confirm that I do not have any current or intended future financial or other interest in the above mentioned horse, the proposed syndication or Darby Racing and this letter may be relied upon by prospective investors who invest in the horse.

Yours sincerely,

Dr Chris Lawler BVSc

This certificate has been prepared for inclusion in the disclosure statement issued by the Syndicate and at the time of examination can be relied upon as a true document. The issuing veterinarian has no financial or other interest in the Syndicate or monies raised by the Syndicate. The examination was performed using EVA guidelines.
