Certificate of Veterinary Examination of a Horse On Behalf of a Prospective Purchaser

Name of Horse: Harpo Marx - Lot 618
Age: 3yo **Sex:** Colt **Colour:** Bay
Vendor: Ballydoyle Stables

Vetted on behalf of: Hubie de Burgh
Place Vetted: Tattersalls
Date of examination: 29th Oct 2019

REPORT OF EXAMINATION: I find no clinically discoverable signs of disease, injury or physical abnormality other than those here recorded (or recorded on the attached sheet)

Conformation: The colt was a good sized individual with a good depth of girth. He was slightly offset through both knees.

Clinical Examination:

1. The colt moved well at the walk.
2. The colt was sound at the trot on a hard surface.
3. Mild heat was palpable over the right fore Superficial Digital Flexor Tendon (SDFT). No thickening of the tendon or pain on palpation was noted.
4. Mild effusion of the intercarpal (middle) joints of both knees was present. No associated pain on flexion if these knees was evident.

Endoscopy of the upper respiratory tract.

1. An AAEP Grade 2 laryngeal function was observed on examination following strict nasal occlusion.
2. A post sale wind test was advised.

Radiography:

No radiographs was available for inspection.

Ultrasonography: Scans of the forelimb tendons and suspensory ligaments were taken.

No significant abnormalities were observed.

Summary

Specialized techniques included in addition to the standard procedure: Yes (Ultrasound Scans)

Bloods taken for testing for NSAIDS and other substances: No

Bloods taken for export testing (EVA, EIA, Piro Ifat, Dourine and Glanders): No

Swabs taken for CEM: No.

The vendor gave an oral declaration that the colt was free of any notable vices and had not received any recent medication or undergone any surgeries whilst under their care.

THE OPINION:

In my opinion Harpo Marx represents a Pass with a Low risk for racing.

The colt could well be improved by maintaining him on anti-ulcer mediation and probiotics.

A level of medical management in training may also be of benefit to his action in training.

A post sale wind test was performed and no abnormal inspiratory noise was heard.

Should you have any further queries please do not hesitate to contact me at the above address.
